EDUCATION

•Bachelor of Technology in Computer Science and Engineering

Kalinga Institute of Industrial Technology, Bhubaneswar

CGPA: 8.67

2023 – 2027

PROJECTS

Krishi Saathi – Smart Rural Agriculture Management Platform

React.js, Node.js, Express.js, MongoDB, REST APIs, Machine Learning

- Developed a full-stack agriculture platform enabling farmer registration, village information management, crop advisory services, and real-time access to agricultural resources through a centralized web portal.
- Integrated RESTful APIs, MongoDB data management, weather-based insights, and AI-powered crop recommendation and plant disease detection modules to support data-driven farming decisions.

CampusConnect AI – Smart University Query Resolution System

HTML, CSS, JavaScript, Node.js, Express.js, EJS, REST APIs

- Developed a full-stack chatbot system handling **50+ structured university queries** related to admissions, courses, and campus services.
- Engineered backend architecture using Node.js and Express.js with modular routing, supporting **200+ test interactions**.
- Designed RESTful APIs reducing average response time to under **300ms** during simulated load testing.

EventSphere – End-to-End Event Management Platform

HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, JWT Authentication

- Created a full-stack event portal supporting event creation, registration tracking, and role-based access control.
- Implemented JWT-based authentication securing **50+ simulated user registrations**.
- Used normalized MongoDB schemas to manage **200+ event-participant records** efficiently.

TaskFlow – Personal Productivity Manager

HTML, CSS, JavaScript

- A responsive task management system with complete CRUD functionality.
- Persistent client-side storage handling **100+ task entries** without performance degradation.

TECHNICAL SKILLS

Programming Languages: C++, Java, Python, JavaScript, SQL

Frontend Technologies: HTML, CSS, React.js, Responsive Web Design

Backend Technologies: Node.js, Express.js, Django, REST APIs

Databases: MongoDB, PostgreSQL, MySQL

Data and AI Technologies: Power BI, DAX, ETL Pipelines, Data Warehousing, Data Modeling, OpenCV, MediaPipe

Tools and Cloud: Git, GitHub, Postman, VS Code, SQLAlchemy, Microsoft Azure

Core CS Fundamentals: Data Structures and Algorithms, Operating Systems, Object-Oriented Programming, DBMS

CERTIFICATIONS

•Datacom Software Engineering Job Simulation – Forage

•Deloitte Australia Technology Consulting Job Simulation – Forage

•Web Development Bootcamp – Udemy

POSITIONS OF RESPONSIBILITY

–SMC Cell - GeeksforGeeks – KIIT Chapter

Feb 2025 – Present

- * Led content planning and execution strategy for **5+ technical events**, driving engagement across **500+ student participants**.
- * Coordinated with Marketing and UI/UX teams to optimize event outreach, resulting in a **75% increase in student participation**.

–Operations Manager - IEEE CTSOC – KIIT Chapter

Oct 2025 – Present

- * Led operations for **Code Combat** event, securing **800+ registrations** with **200+ live participants**.
- * Organized and managed a 3-day IEEE international conference with foreign delegates and **200+ research paper presentations**.
